## Jasmin Suljanović

Photography was a compulsory subject in the second year of my police high school. Upon graduating high school, I studied at University, built a family house, worked in responsible jobs, so the photography became just a memory for a family album.

Upon retirement, the desire for photographic expression awakened in me, so in 2011 I joined the Photographic Club Jesenice. got F 3, F 2, F 1 distinctions but also and KMF of the Photographic Association of Slovenia. The International Federation of Photographic Arts awarded me the title of Excellence FIAP in 2017.

I have exhibited in more than 40 countries of the world and won more than 45 awards and recognitions. Now I am a member of the Radovljica Photography Society.

Fotografija je bila obavezan predmet u drugoj godini moje srednje policijske škole. Poslije završene srednje škole sam studirao, sagradio obiteljsku kuću, radio na odgovornim radnim mjestima tako, da je fotografija postala samo

priča za porodični album.

Po odlasku u mirovinu se je u meni probudila želja za fotografskim izražavanjem, zato sam se 2011 godine učlanio u Fotografski klub Jesenice. Pridobivam nazive F 3, F2, F1 i naziv KMF Fotografske zveze Slovenije.

Medjunarodna federacija fotografske umjetnosti mi je 2017 godine dodjelila naziv Excellence FIAP.

Izlagao sam u više od 40 država svijeta i osvojio više od 45 nagrada i priznanja. Sad sam član Fotografskog društva Radovljica.

Počeo se baviti fotografijom u svojim mladim danima, u dobi od 7 godina i od tada je nerazdvojan od fotografске opreme i fotografija prirode. Fotografija ga je počela zanimati prvo pod uticajem strica, pa je u školi upoznao profesora koji je fotografirao prirodu i životinje. ## Jožica Trstenjak

I was born in Celje, a member of the Jesenice Photography Association since 2011. Love for photography has been living in me since childhood when I was following my father during his photographic tasks. I often took his camera secretly and "mixed" a whole movie with great motives that my father did not appreciate. In 2004, I began to actively walk in the mountains and on the mountains, and started to notice in a special way the details of nature, changes in seasons ...I felt a need for a new way of keeping my experiences and bought my first Canon digital camera. I shared the most beautiful photos through messages with friends who enjoyed glimpses of beautiful peaks, flowers, animals and small secrets of nature hidden in the eyes of ordinary mountaineers. I enjoy macro photography. In addition, I have written many lyrics of the songs that appeared and are still being emerging in my soul occasionally.

I joined the Photography Society in order to socialize with people related to myself, and initially I was not ready to share my work with a wider circle of people. Over time, with the help of members of the association, I began to trust more in own photos, and in 2015 I felt ready to prepare for my first solo exhibition.

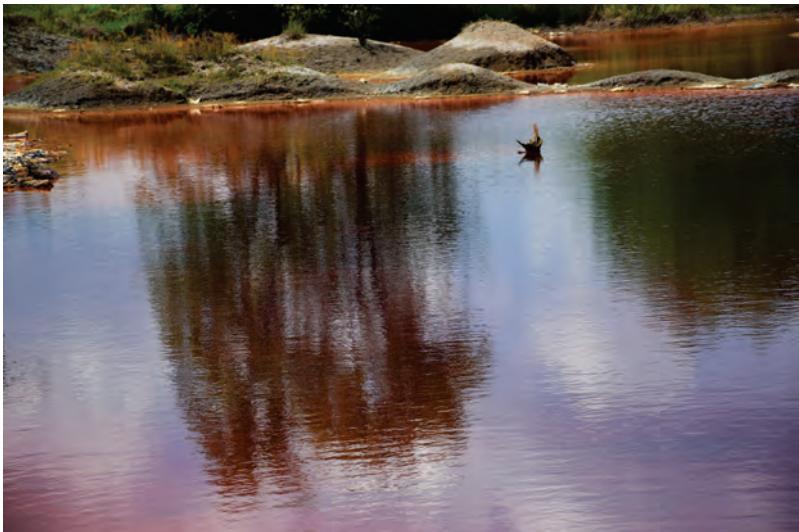

Rodjena sam u Celju, članica Društva fotografa Jesenice sam od 2011. Ljubav za fotografiju živi u meni od detinjstva kada sam se pratila u fotografiskom radu mog oca. Ja sam često uzimala njegovu kameru tajno i "premeštala" cijeli film sa velikim motivima koji nisu učinili moga oca sretnog.

2004. godine sam počela da aktivno šetam u planinama i na planinama, na poseban način posmatram detalje o prirodi, promeni u godišnjim dobama ...

Osećala sam potrebu za novijim načinom čuvanja svojih iskustava i kupila sam svoj prvi Canon digitalni fotoaparat. Delila sam najlepše fotografije kroz poruke sa prijateljima koji su uživali u pogledima na ljepe vrhove, cvijeće, životinje i male tajne prirode, skrivene očima običnih planinara. Uživam u makro fotografiji. Pored toga, više puta sam zapisivala stihove pjesme koje su se pojavljivale i još uvijek nastaju u mojoj duši.

Pridružila sam se Društvu za fotografiju u cilju druženja sa ljudima vezanim za sebe, a na početku nisam bila spremna da dijem svoje snimke sa širim krugom ljudi. S vremenom, uz pomoć članova udruženja, počela sam sve više i više verovati svojim slikama, a 2015. godine sam odlučila da budem spremna za pripremu snimaka za svoju prvu samostalnu izložbu.

A member of Jesenice Photography Association for only year but started with photography in elementary and high school. After years of rest, decided to try again. Taking pictures of different motives, and currently looking for a genre to deal with more intensively. Mostly inspired by the macro images because it reveals the details that we do not notice, but also attracted to the street photography and faces of the people of the world.

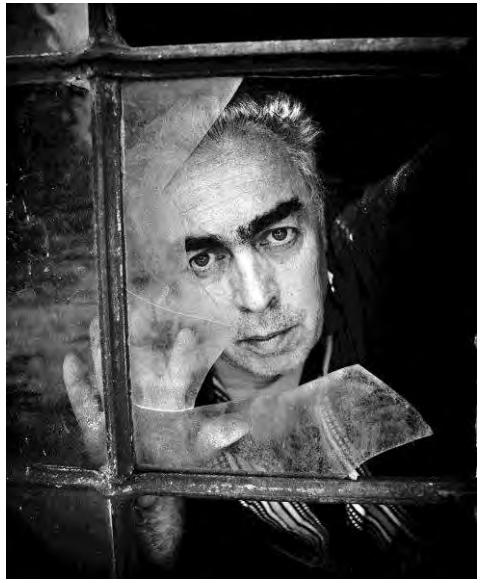

“Together with colleagues from the society, this year for the first time I attended the photo safari "Good and Bad Land". The organizers did their best to assist us to see a lot of things interesting

for the photographers' eyes”.

Rodena 30. januara 1960. u Jesenicama gdje još živi i radi. Član Foto Kluba Jesenice samo godinu dana, ali se počela baviti fotografijom još u osnovnoj i srednjoj školi. Nakon godina pauze, odlučila je pokušati ponovo. Snima različite motive i trenutno u potrazi za žanrom kojim bi se intenzivnije bavila. Najviše inspirisana makro slikama jer otkrivaju detalje koje ne primjećujemo, ali je privlači i ulična fotografija i lice ljudi iz celog sveta. "Zajedno sa kolegama iz društva, ove godine po prvi put sam prisustvovao foto safari" Dobra i loša zemlja ". Organizatori su se potrudili da nam pomognu vidjeti mnoge motive zanimljive očima fotografa. "
