# BESEDA ŽIRIJE

Pričujoča razstava je ne le prikaz trenutnega večdesetletnega stanja v segmentu slovenske fotografije, ki spada pod pokroviteljstvo FZS, pač pa tudi odsev nenapisanih, a močno prisotnih in zakoreninjenih smernic FIAP in sličnih organizacij popularne fotografije, katere trendi nezadržno gravitirajo v vsečnostne silnice socialnih in ostalih množičnih medijev. S čimer seveda ni nič narobe. Ustvarjanje je osvobajajoče, sproščujoče in osrečujoče, pohval smo pa željni vsi, ne glede na ezoterične nesmisle o popolni nepotrebnosti tega. Potrditve in do neke mere tudi zavrnitve so pogonsko gorivo sle po nadaljnjem razvijanju in raziskovanju in so lupilci olesenelih ovojev okoli naših otroških zvedavosti, neobremenjenosti in navdušenj.

V imenu žirije bi po natančnem pregledu in skrbni podelitvi ocen in priznanj apeliral na nagrajence, da se ne zleknejo na lovorike in se vedno znova podajajo na nova brezpotja, četudi jih kdaj očituječe in brezsrčno oplazi kaka ostarela zlohotna kopriva ali ogrebe kako zahrbtno ukrivljeno in izkrivljeno trnje. Ostalim udeležencem pa naj bo morda tudi krivična ocena predvsem v razmislek, kaj bi lahko izboljšali.

Zelo posplošeno bi lahko vtise po pregledu skoraj 1300 fotografij zapakiral v eno majhno priročno škatlico hitro pozabljivega, tisočkrat videnega, prevzorčenega in prezrcaljenega. Razen seveda nekaj redkih izjem, katere so sinhrono navdušile vse tri neusmiljene kritike sorodnih pogledov, a precej različnih korenov. Sledenje nekim trendom, posnemanje drugih uspešnih avtorjev in poskušanje biti všečen žirijam so lugi, ki razžirajo ustvarjalnost, iskrivost in raziskovalni duh. Seveda, vsi imamo svoje idole, vsi začnemo pri oponašanju in nadaljujemo pri interpretiranju, ampak cilj vsakega ustvarjalca naj bo njegov lasten izraz, posledica osebnih in neobremenjenih videnj. Kljub anonimnemu natečaju bi si želel, da prepoznamo avtorje po njihovem slogu, ne pa po že mnogokrat nagrajenih fotografijah.

Po skrbnem izluščanju izstopajočih del se je prvi vtis precej popravil, nezadovoljstvo pa naj ostaja gonilo napredka. Ne bom vam zaželel dobre luči, kajti ta je vedno prisotna, le odtenki njene pojavnosti so včasih bolj včasih manj prepoznavni. Želim vam le, da jo zavohate in ujamete v žaklje svoje domišljije, ter si jo vzgonsko vpihavate v krila svoje kreativnosti.

# JURY EVALUATION

The exhibition is not only a presentation of the current decades-long situation in the segment of Slovenian photography, which falls under the influence of the Photographic Society of Slovenia, but also a reflection of unwritten but strongly present and ingrained guidelines of FIAP and similar organizations of popular photography, whose trends inevitably gravitate media. Which, of course, is not wrong. Creation is liberating, relaxing, happy and we are all eager for praise, regardless of the esoteric nonsense about the complete uselessness of the ego. Affirmations and to some extent, rejections are the fuel for further development and research and are peelers of the woody wraps around our children's curiosity, unencumberedness, and enthusiasm.

On behalf of the jury, after careful review and careful awarding of prizes and honorable mentions, I would appeal to the winners not to fall for their laurels and to set out on new paths again and again, even if they are sometimes reproachfully and shamelessly crawled by some old sinister nettle or thorns. For other participants, however, it may also be an unfair assessment, especially to consider what could be improved.

Very generally, after reviewing almost 1,300 photos, I could pack my impressions into one small handy box of a quick-to-forget, seen a thousand times, re-sampled and flipped. Except, of course, for a few rare exceptions, which were synchronously impressed by all three relentless critiques of related views, but of quite different roots. Following some trends, imitating other successful authors, and trying to please the jury are lugs that erode creativity, sparkle and exploratory spirit. Of course, we all have our idols, we all start with imitation and continue with interpretation, but the goal of every creator should be his own expression, the result of personal and unencumbered visions. Despite the anonymous competition, I would like us to recognize the authors by their style and not by the many award-winning photographs. After carefully extracting the outstanding works, the first impression has improved considerably, and dissatisfaction should remain the driver of progress. I will not wish you a good light, because it is always present, only the shades of its appearance are sometimes more sometimes less recognizable. I just want you to smell it and catch it in the pockets of your imagination and blow it up into the wings of your creativity.
